- ✧ Non-invasive and painless treatment, relaxing and comfort;
- ✧ Treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury;
- ✧ The soft cabin can be folded for easy portability;
- ✧ Transparent window for easy observation;

- ✧ Medical TPU high-strength pressure-resistant nano-material, environmentally friendly and tasteless;
- ✧ The oxygen concentration is stable, and the blood oxygen saturation increases rapidly;
- ✧ Pure oxygen to stimulate the natural healing process;
- ✧ The simultaneous operation of pressurization and oxygen is more efficient.
- ✧ Beauty&wellness: HBOT helps rejuvenate your skin. During a hyperbaric oxygen therapy session inside a pressurized chamber, the body receives pure oxygen at higher atmospheric pressure to boost the flow of oxygen into the circulatory systems;
- ✧ Sports: HBOT for professional sports has become one of the most effective methods for athlete recovery. Supplementing oxygen intake at higher atmospheric pressure inside a hyperbaric chamber is known to naturally accelerate healing times to treat sports injuries and allow injured athletes to recover faster and reduce the risk of re-injury;
- ✧ Wounds and burns: healing wounds need oxygen to heal naturally and hyperbaric oxygen therapy has been successfully used as complementary therapy for wound healing. Used as complementary treatment, hyperbaric oxygen therapy can help decrease mortality and reduce the need for surgery for mild to severely burned patients;
- ✧ Anti-aging: hyperbaric oxygen therapy for elderly patients inside the hyperbaric chamber, a patient will absorb oxygen close to four times the normal breathing conditions. Oxygen controls most of the body's processes, including the immune system. Lack of oxygen can lead to a vulnerable immune response, increased fatigue and eventually hypoxia.
